Drill Jigs & Templates

Smart slide drilling jig with ruler

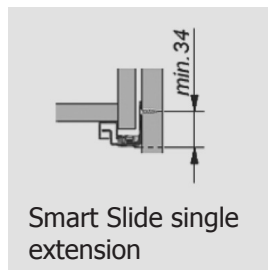

- The slide fixing holes can be easily drilled on both assembled (see 2 & 4) and pre-assembled cabinets (see 1).
- The jig can be clamped internally (see 2) or externally (see 3) to the assembled cabinet. The reference point can be set from the inside or underside of the cabinet base.
- The jig can be fixed in place with the locking device (see 3).
- The drilling positions for both standard and inside drawers can be determined by use of the adjustable template (see 6).
- The jig is suitable for SmartBox, SmartSlide single and full extension, SamBox and bottom mounted slides.

Sambox

Smart Slide single extension

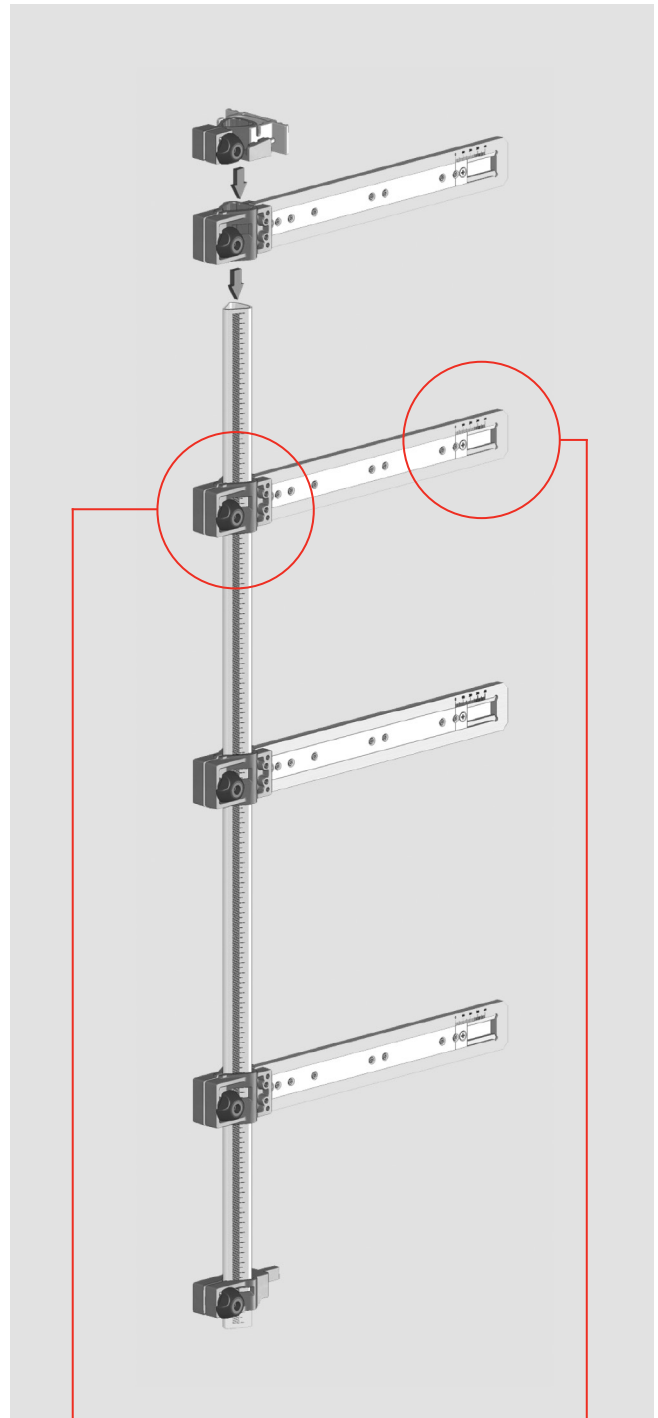

Smart Slide full extension

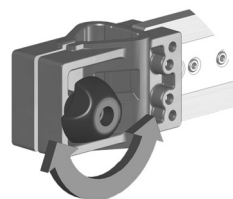

Smart Box

Drawer front panel template

Part Number	Pack Qty
110623 (Chipboard Screw)	1
110625 (Euro Screw)	1

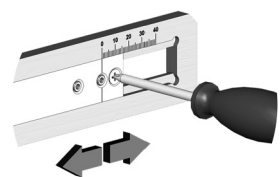

5

After finding the desired measurement on the ruler, the position is fixed by tightening the nut.

6

With the adjustable template, both standard and inside drawers can be assembled. The scale needs to be set to "0" for normal drawers.
