Key benefits of the Airtronic and Fusion Edging combination:

- Visually flawless - especially with high-gloss.
- No contamination of the joint.
- No yellowing of the joint.
- No deterioration of the joint.
- Functional layer colour co-ordinated.
- Increased adhesion strength.
- Distinctly higher thermal stability.
- Substantially better moisture resistance.

E.B.M Airtronic - Exclusively from NEY

The Airtronic system will apply premium-coated edging materials up to 3mm thick and, whilst it is compatible with hot-melt glues, laser edges and PUR, it does not come with the hefty price tag often associated with its laser counterparts.
